Rehabilitation, Reintegration and Respect For Children Who Have A Physical Disability Or Are Extremely Poor.

Dear Supporter Heartily Namaste,

The children have returned to their studies fulltime and are working really hard studying and preparing for their upcoming exams. The children from class ten are getting ready for the SLC exam. Now we have two home teachers one for the junior classes and one special teacher only for class ten. This academic year 2015 eight of our children are going to give SLC exam. The other children below class ten will be having their exams soon as well. Our children from class ten already got farewell party from school and got token of love.

## New Dining Table

We have been given New Tables for the dining area. These were donated to us, and are very nice. They are made of marble and very sturdy.

## Sewing Training

Sewing training is going on continuously and now we have around 10 trainees. The sewing teacher comes here everyday to give sewing lessons for them. Also computer training is going on continuously. Children learn computer on public holiday. And they do practice what they had learn in computer class in School.

## Fun Time!

Dream Cricket Australia organized a game of Cricket for our Children. Most of our children participated and enjoyed themselves very much. All of the children were excited regarding this game. The organizer distributed trophies to all the children who participated.

DRC organized picnic for all the children at Nagarkot.

## Health News

We have a physiotherapist who comes to the DRC every morning to do physiotherapy with the children. She has al-so been teaching them about how they need to continue to do regular exercise, so that they will keep improving and getting stronger. The children are responding to her direction really well and we have already seen some great improve-ments. For all the other medical needs of our children we take them to a regular doctor.

## Study Time

All of the children are studying after school in their home. They are busy with their homework.

Everyday we have a home teacher who comes to teach the children, and give them extra help where they require it.

Thank you very much for your contribution for the DRC family. The DRC family looks forward to your continued support and co-operation in the future also. We really appreciate all that you do for our children.

May your year be filled with blessings.

Disabled Rehabilitation center, Nepal.
